Carolina Voices: Two Hundred Years Of Student Experiences

Synopsis

In celebration of the University of South Carolina's bicentennial, this remarkable volume reveals the personal stories of Carolina students over the past two hundred years. Told in their own words, these writings - from antebellum manuscripts to e-mails - capture the color and spirit of the times, revealing attitudes and opinions, issues and passions. From those first young boys chopping wood to warm their rooms, to today's young men and women surrounded by the latest technology, the voices of Carolina's students testify to the transforming power of the college experience. To gather this collection of texts from 1801 to the present, the editors searched family papers, collections of letters, university archives, autobiographies and histories, journals and diaries, student newspapers and literary magazines, and oral histories. In this volume students share their own versions of the University of South Carolina story - explaining their activities, voicing their opinions, cheering their teams, and sometimes writing home from far away. Some of their concerns have changed; twenty-first century students worry more about parking tickets and phone bills than the price of fuel or the threat
