Customer Reviews

The holiday starts the moment you open the guide book The Guardian

We looked at this book before we got to Moscow and it laid things out for us so we were ready to see all that was possible in three days.

I am a fan of these laminated maps, which do not become soiled and torn. They also include special indications of landmarks, which are very useful when finding your way in a foreign city.

This is a tiny and light guide that can fit in any pocket. In spite of that it has a lot of good information

for the sites to see.

up to date information; practical guide and map all in one great for tourists; great series of tourist information for all
