The Boy Who Carried Bricks - A True Story

Synopsis

Abandoned by his father, neglected by his mother, shuttled between foster homes and a boys ranch, a young African-American man refuses to succumb to the fate that the world says should be his. Told by the man who lived it in a new edition with a cover to appeal to older YAs.

Customer Reviews

"Carter's simple language and honest, matter-of-fact tone create a narrative that is not only accessible and appealing, but also an authentic account of what poverty, abuse, and child welfare look like through the eyes of the young." -- -- --Jewel Davis, VOYA2016 Oklahoma Book Award2016 Top Ten In the Margins Book Award List --In the Margins Book Award committee"Alton Carter tells the story of his rough childhood in a style that both enlightens and inspires...It is at times heartbreaking but always hopeful." 2016 ForeWord Reviews Book Award finalist, YA nonfiction -- --ForeWord Reviews

A former foster child and police officer, Alton Carter is the director of youth ministries for the First United Methodist Church of Stillwater, Oklahoma. He is a graduate of Oklahoma State University. The father of two sons, Kelton and Colin, he loves spending time with his family, working with youngsters, and fishing. He makes his home in Stillwater, with his wife, Kristin. This is his first book.

This story is such a difficult one to read. To view Alton's account of his life and how He and his family suffered because of broken relationships, abuse and dreadfully inadequate resources is

painful. Also to know there are many others like him all around us who have not found a way out of these cruel circumstances is a wake up call to our society to invest more time and loving action on behalf of these kids. Yet Alton shares his story honestly and is such an inspiring example of overcoming all these huge obstacles to go on to become a wonderful ,positive contributing blessing to others. This is a great motivational story no matter what our life work is everyone can benefit from reading this book.

This author told his story so well. You can't help but to read this book in one sitting. If you have ever wondered what it is like to be a child in the "system" and have asked the question "How did that child get there" this is the book you need to read! His 2nd book, Aging Out, is another must read if you want to know the story of these kids! His story is one of many!

It was a very good book to read and learn how blessed we are and understand why these kids grow up and think the way they do. It is very sad to know they grow up in these conditions and think it is the way of life. I am sharing this book with my grandkids so they will see how fortunate and blessed they are and maybe some day, with God's help, they can give one of these kids an ounce of hope and love to keep on going like Alton. May we all have that opportunity!

Every parent, teacher and student needs to read this book as soon as they are able to understand the unbelievable message that Alton Carter is telling kids today. A must in EVERY school library.

The Boy Who Carried Bricks is a must read for anyone. I plan on having both my teenage daughters read it. This book should be required reading for all children in junior high and high school. Alton is an amazing man, who I had the pleasure of having as my gymnastics and cheer coach when I was younger. The person he was never gave any hints to the horrendous childhood he had experienced. Thank you Alton for writing this book. It reminds a lot of us that we need to be more thankful for the lives we have.

Not an easy read but certainly a story that needs to be told. A sad story with a happy ending that could make a difference in lives of others.

I live in Oklahoma. To hear a story if abuse and family neglect is hard to take. I have always been very fortunate and try not to take for granted everything that life has to offer. Knowing as a teacher,

it touches my heart to have read such a beautiful and sad story. I will read it to my 6th graders and hope they are touched in some way, as I was.

Very pleased with our purchase.
