Casenotes Legal Briefs Torts: Keyed To Prosser Wade Schwartz Kelly & Partlett 12e

Synopsis

After your casebook, Casenote Legal Briefs will be your most important reference source for the entire semester. It is the most popular legal briefs series available, with over 140 titles, and is relied on by thousands of students for its expert case summaries, comprehensive analysis of concurrences and dissents, as well as of the majority opinion in the briefs. Casenotes Features:

- Keyed to specific casebooks by title/author
- Most current briefs available
- Redesigned for greater student accessibility
- Sample brief with element descriptions called out
- Redesigned chapter opener provides rule of law and page number for each brief
- Quick Course Outline chart included with major titles
- Revised glossary in dictionary format

Customer Reviews

Casebooks are a waste of time and money - both of which I hate to waste! A Gilbert's Law Summary and a Case Brief Book will give you the meat out of the casebook and save you a ton of cash - and time! The Case Brief Books usually have a lot of helpful information in them, but even they have more than we really need for exams! Look up old exams for your professor, or sample essays from Bar exams, and analyze the issues that they are REALLY testing us on. Then develop solid - exam ready - definitions and rules so that the essay is more of a typing speed test than a law exam for you. Know the issues and rules cold, the analysis is only available to you when you read the fact pattern, and the conclusion only matters to the point that you had one - and that it stems from your analysis! Best wishes for much success, always!

The CaseNote Legal Briefs series is an excellent addition to a law students book bag. Many professors do not allow canned briefs so be sure to transcribe the information or use it as a tool to quickly review a case if you are low on time or need a refresher before class. The facts are always accurate, the issue is usually what the professor is looking for, and the holding is also correct. The series also defines legal terms used in the case on the brief. I've used the CaseNote series in every first year class and they made my life a lot easier. Reading cases is important but when you are low on time or need a quick summary this series is fantastic. The book is also perforated so you can tear out the briefs as you need them or scan the page to view on your computer if the professor allows computers in class.

Although I only used this for Torts II, I think this book is perfect for anyone using it's key textbook (whether Torts I or II). It will bring you the understanding quickly, and thoroughly. It also used the same language to describe the black-letter-law and the rationale behind it. Bottom line: This book is GOLD for those who need a quality short-cut in Torts case-readings and are assigned the Prosser Textbook. CON: The only things you will miss out on are (1) the main explanation to the tort legal theories (which is usually covered in less than 1-page in the main textbook before getting into a fat case-reading); and (2) another opportunity to practice and hone your reading skills by reading the Judges' extensive analysis and opinions in the main textbook. Happy readings, you short-cutting slackers!

Not really that helpful since free case briefs are available online. Moreover, the professors have their own perspective on the case so reading the case book is indispensable.

Great book with a great price.

this is a handy and useful resource. i found it easy to use and find what i needed and with out a head ach. the lay out is wonderful and detailed and well defined for the cases, the notes are easy to read and understand unlike some the get to the meat of the case and tell you what you need to know,

Registered myself as a student to receive 2 day free shipping.....didn't realize that when I order through , that selecting two day shipping mean 2-4 weeks shipping. I wanted to send out the warning that if you order from , regardless of the shipping speed you select they have a 2-4 week disclaimer and will take your items off the cancellation option and mark them as "shipping" so that

you cannot cancel if you do not get your books on time!!! Warning, order supplements and texts through vendors, NOT through !!! If this does happen to you call customer service and if you insist they will eventually cancel the order so you can purchase through another timely vendor. My service provider had to seek permission from a supervisor to cancel the order that hadn't even shipped!

Works as advertised
