a great guide to master the game. Everyone is so hyped about pokemon GO, and if you don't want to miss out on this phenomena then you should read this book. The writing style is very interesting with step by step guide to catch the best pokemons, and how to train them.

Good book on Pokemon Go. Everyone played in my house except me as I could not get the hang of it. The book explains what it is and how it can be played. Good book all round.

This book was awesome! I have just recently gotten into Pokemon Go. I'm a bit of a noob. This book got me up to speed quickly! It gives tons of in-depth information on strategies for everyone of every skill level from beginners to experienced players. Lots of good info on how to find gyms and PokeStops as well as info on the different types of Pokemons. Who knew there were so many!? Great book! Highly recommend!
