I bought this for my son who is starting college. I am a college instructor, and learned a lot!

Ahem--alcohol and partying section does not need to be so long. :-(

Love all the great hacks. I've discovered so many things that have been useful to me. Things I

never would have thought of, and they have saved me space, time and money. Very useful for the college student who is short on funds.

If meeting my expectations means that the college bound nephew that I purchased this for is using it as a reference book, then absolutely yes College Hacks met my expectations! He says "it's a keeper Auntie - thanks!"

Purchased as gifts for several high school grads. Have only had feedback from one dad who said HE appreciated some of the info in it.

Lots of good pointers for everyday life as well for college.

Great book, useful and entertaining

Good one. It is making the rounds in our family. A surprising find.

My son who is 19 loves this book. He saw it at Barnes & Noble but it was less here.
