Customer Reviews

Nancy Dickmann is a Heinemann-Raintree author.

My oldest son who is 7 loves reading this book to his younger brother. It is a very informative yet easy to read book for 1st graders.

Love it

All kids love machines and this one has great pictures and information about what they are used for.

its a poorly written book misspellings, I am not happy - give me my money back ASAP!!!!!!!!!!!!!!!!!!!!!! Its pretty sad you sell this book. Very sad

My son (4) just brought this home from the library, I'm glad we are only borrowing it! It doesn't actually explain anything about farming or even tell you the name of a particular piece of equipment and it speaks to children as if they are dolts. Sadly my son knows more about farming and equipment than whoever wrote this book.

My grandson has autism and wants to be a farmer someday. He was very interested in this book...loved it.

This is a great informational book to teach children about informational text.

This book is great for teaching first graders about farming. The boys in my class loved looking at the machinery.
