Customer Reviews

This is a fun little book that you must get for your child because of the little pictures the kids can read with you ! The adventure in the story is great too!

Not only does my granddaughter love this book, but two little boys I see weekly love it too. Can't go wrong with the two of them

My little ã â â'Â§ ã â â^â• it

My daughter is wild about Dora and Diego and there are not that many books that feature both characters. This is also one of the less mundane stories from an adult's perspective so I don't mind reading it. Some of the others are hard to get through as an adult due to the inane plots. But the kiddos love them!

This book was very simple. My only negative was that the words that go with each picture are very small. The kids aren't learning the spelling of the word for word recognition. They are only learning picture recognition.

Came on time as was what it was advertised to be. Good for the purpose it was purchased for. Would recommend it.

I love that the words enlarged if you tapped them. Nice pictures and story that got and kept the kiddos attention

LOVE THE LEVELED READING! My daughter is three and loves learning the words with small pictures. Great idea for teaching reading
