Superman is still going strong the art was okay "I really like the super sons' artist (sorry can't remember his name) and I would love to see him as the main artist in this book but unfortunately he only draws an issue or two every volume" the story was good not perfect or amazing it was good overall it is a good book if you are enjoying Superman you would enjoy this one too.

I purchased this book because I am a fan of Superman and Wonder Woman. I would recommend to all fans DC.

It was one of the best books concerning the multiverse and then it makes it seem veryigmatic until then end and then it has a great battle

This is the best so far. Love the continuity of the story within the collection. Had a hard time putting it down, read it twice the first night I got it. I will not take the time to recommend this if it's not worth it. If you love the pairing, show your love and buy this collection. More power to DC and hope they have more plans for the power couple. Superman Wonder Woman forever.

Love this series

Just love it!

Why has it taken DC so long to realize that WW and Superman are the perfect couple? Too obvious? Well in this volume, they battle the new threat of Magog. But who is the power behind the throne? Read on...

Honestly, the art is fantastic. But I truly think Soule did a better job with the Power Couple than Tomasi did.
