Customer Reviews

Having just got back from Tasmania with this book in tow I can highly recommend it to everyone, from locals, all Australians and the overseas visitor. This book has not only the history of this State but everything that you could want to know about the flora and fauna, where to stay including the very basic accommodation through to the most luxurious, there are in depth maps, where to do the best shopping for your souvenirs, where to eat whether it be fish and chips, vegetarian or a steak. This book was my bible and did not let me down once. We even found some short cuts with some lovely hidden treasures of nature displayed for us just by following the maps. The good thing was that the book does not only give information for the big towns but also many of the smaller ones hidden away, by visiting some of the smaller places it made my holiday that bit more personal and memorable. Read the book and you'll want to come and visit this wonderful isle.
