Europe Executive [Tubed] (National Geographic Reference Map)

Synopsis

The Executive political map of Europe is a striking example of the cartographic excellence National Geographic is known for. The antique color palette, shaded relief, and easy-to-read fonts make this map both beautiful and functional. International boundaries are clearly defined and thousands of place names, waterbodies, airports, major highways and roads, national parks and more are included. This map includes complete coverage of the countries and major cities of Albania, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia & Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Moldova, Montenegro, The Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, Ukraine, and the United Kingdom. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:8,400,000 Sheet Size = 30.5" x 23.75"

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and

explore their world.

Looks good with a wide dark frame.

I ordered this map to help track where we want to travel while in Europe. We hung it in our office and it looks great! The laminate helps protect it and allows us to use dry-erase markers. I would highly recommend this map for anyone interested in Europe and want a map that looks great on the wall.

MAPS: *****Those maps are great and we loved both of them (Europe and Asia).They are pretty updated: Europe has Kosovo and Montenegro.The design, colors, paper are great.The Asia map is nicer in one aspect: it displays other countries - not belonging to Asia - in white colors so you easily see the border. That doesn't happen in Europe's map.DELIVERY: **However both of the maps I ordered came tired and scratched.I was very ashamed of it as I gave it as a Christmas gift.I've promised to replace it ASAP having pretty good experience with so far. shipped the replacement immediately, and picked up the old one next business day.Unfortunately, the replacement came the same way: tired and scratched on the borders.Also, the plastic tube maps came in was missing a tap.It looks that the people packing them take no care at all.Those maps are definitely worth the purchase, but it would be less painful to get them in local store if possible.The internet shopping - in this case requiring 2 replacements - is really inconvenient. They can be picked up only from the place of delivery, and the UPS does not give you a time for pick-up so you are expected to spend whole day waiting for them to come.

Superb.

A perfect map! I use it to place pins on a cork board to show where I've been as I'm living in Europe. The details are great, I often use it when I'm planning new trips.

Not only is this wall map wonderfully detailed and up to date, but it is tasteful colored and is an aesthetically pleasing wall display.

Looks very nice on my wall, the main reason I purchased it. The projection is like most projections of Europe, nothing special like the one they have of Asia. Overall very nice, notably a good size for

pinning cities you've visited if you like that sort of thing. Some were concerned about the prominence of the logo but it's not really noticeable.

It's a really nice map. Although I got one that was messed up a bit at the end. I'm assuming from the cap of the lid being stuck on without care. For my purposes (planning a logical geographic trip to Europe) its not a big deal as I will be sticking pins in it. And a frame would probably cover it if I was doing that.
