Grade 4-7-Englar includes chapters on "The Iroquois Today" and "Sharing the Traditions" to indicate the continuing vitality of the Iroquois nations. In addition, she discusses family life, history, foods, government, culture, and daily life. Information is interesting and clearly presented, making the book useful for reports. Full-color photos, reproductions, and a map are included. Unfortunately, the drawing of the longhouse does not show an inside view. This book is good for general reading as well as for research. Needed this book for my son's 4th grade class. So glad they got more in & it arrived quicker than it

was expected! My son currently has it at school so I am unable to take a pic of it!

The poor review is given because we barely began to read it and pages fell out. I dislike spending money on poor quality. The book itself is informative. There is a touch of bias on pg 41 "Lyons is a powerful speaker for nature ... He encourages all people to protect and respect nature. He has spoken to the United Nations. The Earth Day Foundation and the Audubon Society have recognized his work against pollution and OVERPOPULATION.

The books arrived in great condition!

My son used this book for 4th Grade ELA. He really enjoyed it!

This book has a good deal of valuable information about the Haudenosaunee (Iroquois), but at times lapses into the common flaw of talking about the Haudenosaunee in the past tense.

Perfect book to accompany the novel study of Indian in the Cupboard

My son couldn't put his book down, very interesting reading.

This book is more like a pamphlet, but it contains all the information that one would get in a tome about the Iroquois People. It is concise and was very useful to me in my research.
