I LOVE this book! Though it does not include a meal plan for vegans specifically, the amount of information included in the book allowed me to create my own vegan keto meal plan. It also has a lot of helpful advice on how to deal with issues that may arise as your body transitions from sugar burning to fat burning. This book is so easy to read that it makes it possible for anyone to be keto! A great read and super informative. I love her Paleo approach and her no dairy approach! The recipes are wonderful and yummy. I would recommend this book to anyone interested in a Paleo friendly keto life.

Awesome and good book. This book is packed with details about every aspect of a Keto eating lifestyle. So much juicy information and the breakdown of recipes is amazing. If you love to know all the ins and outs then this is your Keto bible. This is a big book, with tons of information about eating the Keto way, but really listening to your body and doing what is right for you. I have not finished this book yet, but tons of great information! I highly recommend this book!!

I really like this book, i never knew so much about the diet not until i read this book. This book was able to open my mind to what Keto diet is all about. It also pointed out the list of food that makes up this diet. I am so happy to find out that following this diet can help me in weight loss due to high metabolic process through the period of ketosis. I am glad i really went through this especially the recipes i found in it are very nice and very accessible in the market to find.

The author explains how to enter ketosis, how to follow Keto diet and lose weight. I especially found helpful detailed description of a foods that are recommended and not recommended. The books is valuable for anyone who wants to lose weight.

Ketogenic is one of those diets that I learned to get accustomed to just recently. I like to explore more and this book has a good variety of recipes to try on. So far the recipe instructions were easy to follow and understand. I don't find any difficulty with the preparations. I highly recommend this.

Excellent book detailed with keto diet guide. Very helpful in meal plans and a good guide to weight loss. Easy to follow and the recipes are yummy. Greatly recommend it to everyone

I was recommended to start a keto diet recently and was in search of an efficient keto diet manual to find out everything about it. This book is one of the few I liked in particular, where I found all useful advice and recommendations, which was really helpful for me. I strongly recommend this book! Thanks a lot!
