I am a cigar aficionado and still found this to be a helpful quick guide when looking at cigars I am not as familiar with. For example, I usually stick with maduros, but was looking at some habanos and this gave a quick but insightful look at the difference. It also have a great list of terms with definitions on the back. I hung it in my cigar room and my friends use it as a reference and learning tool while they are smoking. Great quick read, and very informative. Couldn't ask for more.

What a great tool for the cigar newbie (and their loved ones who wish to buy them something nice). I read it and took it to the cigar store and was able to buy several cigars he hasn't tried and he loved them! I highly recommend it and I was NOT paid to give this review, but I'm open to negotiate that matter. Lol Å Å¤Å‘

Fundamental information but I've occasionally turned to it to clarify some terminology. "Cigars" is a big field with many terms. Some info regarding cutters is opinionated but still helpful. Inexpensive & made to last, so a good deal in that respect. Doesn't hurt to pay a couple of bucks once to learn about something that you're likely paying more than a couple of bucks for repeatedly, no?

Something for the cigar beginner or even a quick guide for a brush up on your knowledge. I loved how it gave multiple facts that are very common in any cigar buying experience. I was shocked how the cigar shop associates here in Fayetteville, didn't know some of these facts. Even with being in the cigar business over 30 years.

I worked at a store where we had a cigar room and i am a non smoker so this helped me sell the product with a little more knowledge.

I brought this for my husband and he has learned more about the cigars. This is a must have for all the newbies that are just now having an interest in cigars.

I love this guide. Lots of information on one page both sides.

Bought this for my husband and he loves it!! Great quick guide for cigars!
