# Drama Projects For The Middle School Classroom: A Collection Of Theatre Activities For Young Actors

## Synopsis

There's so much more to drama class than just teaching students how to act! Working on individual and group projects devoted to drama components helps students learn everything that the world of drama encompasses. From costumes, scenery, and props to memorization, character development, and creative writing, there is a vast array of skills to develop and explore. This book is a great resource for any drama teacher who wants to provide alternative ways to develop unique drama-related skills. Sixteen different projects each contains an objective, an overview, a project timeline, idea variations, tips and tricks, fun facts, and more. Most projects can be modified to be an individual or a group project and can take from one to five class periods, depending on how much time you want to devote to a particular topic or component. A couple chapters even include fun worksheets for the students to complete on their own or in a group.

## Customer Reviews

For many years, Rebecca Wright wrote and directed drama for middle school and high school students for her church. She co-founded a Christian acting group called One Voice. It was a dream of hers to combine writing, acting, and helping youth. Rebecca currently works in a totally "non-dramatic" profession as a Technical Writer. She has a Bachelor of Arts degree in Communications/Marketing from the University of Kentucky. Whether you are an actor, writer, athlete, or scholar, Rebecca suggests this anonymous quote as a daily mantra: "You aren't finished

when you lose; you are finished when you quit."

This book has some really good project ideas, but some portions of the book seem really dated. I love the alternative suggestions that are provided with each project. Overall, I'm happy I bought it.

Didn't quite have the activities I needed for middle school students. Not using.

Great language resource too.
