Customer Reviews

This book is fantastic and interesting. Last week I purchased this book for my child and he is a huge fan of the Mine - craft book. This comic book is pretty much the funniest and the story line is very exciting. This book cover is attracting and last week I purchased some mine-craft comic books. But

this book is one of the best among them. The story line decorated with the main character's name Felicia and Steve. The author of this book did an excellent job and by reading this book I am pleased. If you what to give your kids a comic book gift, then I think this book I will be the best.

I wanted to take a break from the books I normally read. I was pleasantly suprised. I was engaged from start to finish and actually hope the book was longer!

This book is funny and entertaining. It was free when I got it, and may still be. It was simple and not the best, but I'm glad I read it.

Another entertaining minecraft story read with my baby cousin. The whole book is full of neat colors not black and white its simply a comic book type.

I like the part where Steve is like "Here Herobrine, here is some bacon for your eggs," and Herobrine is like "What the HeckÃfÃÂçÃ â -Ã Âph..ahhh," and runs away from all the dinosaurs and wolves! This is a must read! Pls make more Jurassic Park ones!-IsaBear556
