Customer Reviews

Kindergarten-Grade 4-Animal Fun presents 20 creatures with a single-sentence introduction to their behavior or habitat. Subjects range from the simplest clam and crab displays to more complicated puppets. The most unusual projects include interactive elements: a rattlesnake that actually rattles its tail, a maze to demonstrate the complexity of a prairie-dog habitat, and flowers with glitter "pollen" spread by a bee. Warning: Play-Doh "candy" and "cake" decorators may need additional reminders not to eat their creations. Projects mixes art education with entertainment. With a wide variety of ideas, the book encourages creativity through weaving patterns, creating a mosaic, making Fabergé-inspired eggs, or utilizing a hole punch for an exercise in pointillism. In both books, colored strips along the tops of the pages display needed materials. The crafts have clearly written, step-by-step instructions; brightly colored cartoon illustrations; and color-mixing charts. This book is full of easy and fun ideas to make out of play-doh. My granddaughter and I had fun with this book right away. It is fun for the young and the old.

very comfortable and very fine . as a birthday gift to my husband, I was blown away by how sharp this product is. It cut throw my very soft loaf of Italian without a single tear. I hesitated before I bought it because of another review who said it wasn't sharp enough, but mine is outstanding. as the price. great.

low price and high quality. my sister, fast shipping. Now that's a product....This is a solid piece of steel... Much more than I expected.... the best seller.

I have never heard of a kid that didnt like play-doh. This is a great set, a book and fun creativity all in one.
