Customer Reviews

I've been planning a trip to the Orient and although I hadn't really considered putting Taiwan into one of my stops, after reading this book by Antonio Araujo whose book I read about Thailand and Southeast Asia, makes me want to put Taiwan and its capital Taipei on the list of places to visit. I have to admit I know very little about Taiwan and come to find that even though it's in the top 20 largest economies in the world, it's virtually undiscovered by Westerners. After reading about the 25 secrets while skipping the tourist traps, there are plenty of things to see and experience in this Chinese democracy full of friendly people. A trek to the top of Keelung Mountain to see a perfect sunset, the Maokong Gondola with its eye-catching cars, Mount Qixing, the tallest mountain in Taiwan and a dormant volcano, the various night markets, Chiang Kai-shek Memorial which at least I've heard of and the GuanYin temple are now on my list. I did not know that the world's tallest building was there, Taipei 101, passed in height by the skyscraper in Dubai. I have also always wanted to ride a Bullet Train and Taiwan has one. I like how the author has in the appendix, the Best Bars, the Best Vegetarian Spots, Best Coffee Shops and Hostels as well as Traditional Festivals, and it's a country of numerous hot springs.

I didn't realize that Taiwan has so much of a complicated and rich history and with this book, even before you get to start reading about Taiwan's 25 travelling secrets, there's a great introduction which really does open your eyes to what has made Taiwan the beautiful country that it is today! I actually downloaded this book because my mother and sister are travelling to Taiwan early next

year and I really want to make this trip as memorable as possible for them, really think they deserve it. With the traveling secrets included here I just know they're going to love the country and can see them booking to return as soon as they get back! Impressive Waterfalls, Climbing on KeeLung Mountain, a Volcano Trek, 'Creative Experiences' and visiting various local markets are just some of the trips detailed in this book and these are all described beautifully with related Facebook page, website and Google Map information. In fact, pretty much everything you need to enjoy these trips. There's also some really good mini guides at the back of the book as well, where the author lists things like 'best coffee shops', 'best clubs', 'hostels', and much more... I think I'll be a little bit jealous of the two of them next year! Great work author, look forward to more of your travelling guides.

I read a "secrets" guide from the same author before. This one has fewer secrets so I was a little bit disappointed. But it is still far better than reading a couple of posts about Taiwan because this short pamphlet combines all of these hot destinations and things to do. Secrets aren't limited to just places to go. It is also on activities and food destinations . Looking forward to new destinations even if I no plans of going there.

I think this book provide a great source of valuable information. It is well organized and informative, in a concise way. This book will make things easier, getting everything and everywhere, especially for one who has never been to Taipei. It's got all the basic information, helpful tips on the must seen places and more. Hope everyone finds this guide as useful as I have, which has allowed me to enjoy very much sorting the things before visiting to Taiwan.

For a long time I've been interested in visiting this fascinating place which has become so prosperous and vibrant despite all the obstacles it has faced in it's neighborhood throughout it's history. And this book is a really good beginning for that to be able to plan in advance. Short and in a clean format, it really does what it says on the tin. Tells you 25 must see's and do's. I will use it to plan my trip and ensure I get the most out of my visit.

Learning more about the "Beautiful Island" as some call it was great. From the 25 things that is described that you can do, climbing mountain KeeLung sounds the most exciting to me. The author prepares you for the steep trail and reminds you to take enough water. The adventure does not stop there, there are also Taroka Gorge, Taipei fish market and lots more to get excited about!

Taiwan is one of the best Country to visit in Asia. This will guide you on the beautiful places in Taiwan and what I like best in Taiwan are the street food. I planning to travel Asia within this year maybe I will be going to Taiwan. This book will help many travelers.

Not awesome, but it is worth the money. A few bullet points about what to do and see.
