Customer Reviews

Call us old-fashion, we still don't have a GPS in our cars. Just don't want to become orientation challenged because we rely too much on machines. This book is thorough, easy to read and durable, albeit a little large. It has helped us figure out new and alternative routes many times, and you don't ever have satellite problems. Trust me you'd want one of this if there's a black-out in your area.
