## Customer Reviews

The cover and paper used are both a little thin, but the plus side of that is that the dictionary is not overly heavy to handle. And since they are always coming out with newer editions, I did not want to spend the money on the deluxe edition anyway.

Revised and expanded. Worth buying even if you own an earlier edition. And its price is a bargain.

It is hard to rate a product I needed for school but the Black's Law Dictionary is the standard for legal definitions. I use it almost daily!

I needed an updated Blacks that had print large enough to read. This is not the more expensive bound copy, however, very nicely done. Makes a great desk top reference or addition to your library. Glad I bought it.

It's exactly as advertised. Reference guide for lawyers and criminals alike. Big, bulky, and filled with the outcomes off various important court cases over the years.

Got it after my professor in college told every that this is one of the best law dictionary there is and it's a must have for future law students. And there, I went and bought it. The book is amazingly beautiful, but overwhelming at the same time because of its size. Although, since it is a dictionary, I wished they'd put alphabetical reference on the side of the pages for easier access to the vocabularies, like most dictionaries.

Must have for all people in the field of Law

Perfect for the novice and law student
