Customer Reviews

Snodsmith was "Good Morning America's" original gardening expert.

My friend lent me this book and I had to have my own copy. Great Reference book for gardeners in the northeast

I was disappointed with the way the book was written and did not get much out of it.

This book is a wonderful resource for anyone in NY, NJ or CT. Ralph provided stories about many of the plants he chose to include in the book. I have used this book for the past several years and have absolutely transformed our yard. I have read it many times, but I still find myself referencing it each year. He provides information about the amount of sun needed, when & how to prune each

plant, and the benefits of each (e.g. if the plant/bush/tree attracts hummingbirds, birds, butterflies, is fragrant...etc). This is a tremendous amount of information for the price! It is well organized and easy to reference. What I love the most are Ralph's stories. I read online that Ralph Snodsmith passed away - and although I never met him, I think of him often as I enjoy my beautiful garden!
