NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

My son loves this book, he's not a reader and this book encouraged him to read more and is helping him get better with pronunciation and he reads the book over and over.

8 year old is a sports fanatic and absolutely finds laughter, giggles and knowledge from this book.

My son really enjoys reading Weird but true books..

My 8yr old son absolutely adores the Weird but True Series. Put his favorite series together with sports, and he was stoked! Great quality book (I also like the size of the book as he usually takes these in the car with us). I would totally recommend this for a sports buff or fan of random facts!

My son has read this book over and over again already and loves to share all the information he learns. It's got short enough tidbits that it keeps kids interest, but still shares the info it's looking to share. Love that it's teaching him trivia facts and he doesn't even realize he's learning.

Great smaller paper back book that my 1st grader loves. Have given it as part of a birthday present to many of his friends. Would also make a great coffee table book!

Great variation from all of our many weird but true books (sports themed) Even adults at Christmas gathering enjoyed reading through the facts.

I bought it as a gift, but all ordering and shipping met expectations. Also paged through it, and was very interesting.
