Wolf Trouble (SWAT Book 2)

Synopsis

He's in trouble with a capital T There's never been a female on the Dallas SWAT team and Senior Corporal Xander Riggs prefers it that way. The elite pack of alpha male wolfshifters is no place for a woman. But Khaki Blake is no ordinary woman. When Khaki walks through the door attractive as hell and smelling like heaven, Xander doesn't know what the heck to do. Worse, she's put under his command and Xander's protective instincts go on high alert. When things start heating up both on and off the clock, it's almost impossible to keep their heads in the game and their hands off each other... SWAT (Special Wolf Alpha Team) Series Hungry Like the Wolf Wolf Trouble In the Company of Wolves Readers are hungry for Paige Tyler's SWAT and X-Ops series: "Wow, just wow!" -Fresh Fiction "Nonstop action and hair-raising storytelling done well." -RT Book Reviews "A wild, hot, and sexy ride from beginning to end! I loved it!" -Terry Spear, USA Today bestselling author of A SEAL in Wolf's Clothing

Customer Reviews

Once again, I have a smile on my face after finishing one of Paige Tyler's SWAT books. This is the third one that I have read, because I started with a later book, then decided to read them in order. This book has a good storyline, in that it focuses on the introduction of a female werewolf into the Dallas SWAT team. Khaki is a delightful addition to the team. She's strong, confident, and caring and she's the perfect match for Xander. Xander starts out behaving like a jerk, only because Khaki really gets to him and he doesn't know how to handle it. Khaki is new to her werewolf powers, and doesn't fully realize even what she is for a while. Watching her figure out her new abilities is a fun part of this book. In summary, this book has an interesting storyline, great characters, and suspenseful situations. It's worth reading. We live in southeast Texas, and hurricane Harvey has flooded the area all around us, so these books are my escape while waiting for the rain to stop. Thank you for writing them, Ms. Tyler!

Legend has it that every wolf has his mate...the one woman (or man) out of a billion that's meant just for them. Their one "soul mate"... I gotta admit that if I hadn't liked the first book so much -- Hungry Like the Wolf (SWAT Book 1)...and all these fantastic and lovable characters --- I wouldn't care to find out the rest of this SWAT teams' stories. But I fell in love with all of these yummy, wolf-y fellas on this extra special SWAT team; so I'm hooked. And I'm glad I'm hooked. And now we meet Khaki Blake....the newest recruit on the Dallas PD SWAT team. She's tall with long brown hair and big golden flecked brown eyes and she's still coming to grips with what she is. Khaki Blake just discovered she's not normal and it's confusing the hell out of her. But when she's asked by Gage Dixon (Dallas SWAT team Sergeant) to consider leaving her position in Washington and join the Dallas SWAT team, she jumps at the chance. She's the first female wolf recruit on a SWAT team of sixteen alpha wolves....a double whammy. She's unsure how she'll be received; being A) a woman...and B) a newbie. But all the gorgeous wolves embrace her and welcome her on their team and into their pack...lending support to her when she's never had any before. All except Xander Riggs, her team Commander....the one wolf she's obsessively attracted to. Xander Riggs is sinfully handsome with his dark brown hair and warm chocolate brown eyes. His voice is husky and deep and he has a killer, muscular body. Yeah, Xander is one hawt testosterone menace. And little does Khaki know the turmoil she inflicts within him just by being in the same room...because Xander acts like she's the biggest pain in the butt. He treats her like a malodorous leper one minute, then he gives her a drool worthy smile and praises her progress the next. He emits a scent that drives her wild (and she to him as well). This was a sweetly predictable, drawn out build-up to a paranormal romance amid very minor dramatic criminal events. I loved knowing both POV's from our h/H. It

helped me to connect better...not completely; but better...however there was never any real urgency of fear or suspense within me while I read this story. There were a few moments where I had to pause and wonder why actions didn't line up with these wolf-y characters. Like the big showdown at the junkyard where there are 4 or 5 wolves to one human criminal...yet the criminal continuously bests the wolves. I kept wondering WHERE IS EVERYONE? These wolves who can sense things; can see in the dark; can run faster than lightening strikes; can smell just about everything and hear like nobody's business....so where was the help when Khaki and Xander needed it? WHY did it take everyone so long to come to the rescue? (just didn't make sense). Yes, I know their senses and abilities are dulled when they're wounded...but where did everyone go? Once again, this story held all the aspects detrimental to a semi-suspenseful paranormal romance...ie; a little bit of excitement; a little bit of dramatic suspense; a little bit of humor behind a good story....and semi-romantic interludes tossed into the mix without overpowering the plot line. I only wished there were more descriptive details of our protagonists. We never learn the age of either H/h (which would've been nice). I told myself I wasn't gonna pursue this series after this story because it was basically the same as the first story and it seems like any future stories will follow this same path. But after reading the excerpt at the end of the book about Becker's love interest...well, my curiosity has been piqued. Even though this author is a far cry from Sherrilyn Kenyon or Kresley Cole, I will, no doubt, be looking forward to that third installment to this series in December.

The second book in the ongoing series about Dallas' SWAT team comprised of werewolves. Khaki and Xander's relationship had lots of buildup tension! I liked that Khaki was a strong, intelligent, independent woman clearly able to protect herself. I liked that Xander didn't behave in the common neanderthal way that is often portrayed in romances. He showed respect for Khaki's intelligence and self determination. Nice! The one weakness I found lay in the background story of the back robberies. I just didn't feel the emotional punch or interest in it. It was needed to balance serious with fun in the book but felt like something was missing or cut out. Still, the overall feel of the book resulted in an enjoyable read...and of course, I'll be listening to the audible version next just to be sure I haven't missed any part of this engaging story.

Wolf Trouble by Paige Tyler The SWAT team in Dallas has been told to diversify and add a female to their group. Won't that be difficult for this testosterone driven werewolf pack? No, turns out it's not too difficult to find and add a female werewolf to the team. But Xander is suddenly finding it very hard to concentrate because she smells so incredibly good. Definitely good enough to eat. Yes, pun

intended. A great adventure with hot, sexy men and their habits when confronted by a competent female. Poor Xander just can't resist his One true mate. It was a fast and easy read with quick moving action and compelling attraction between Xander and Khaki. I can't wait to read how the rest of these men meet their own mates.

I debated quite a bit when I saw the price of this book. I've never paid more than \$4.99 for an ebook, but I enjoyed the first book so much that I decided to get this. I'm very glad I did because this was even more enjoyable than the first in the series. I love that so much of the focus was SWAT training and Khaki learning about being a werewolf at the same time. Plus Khaki and Xander trying to resist their attraction to each other was so much fun. I'm definitely hooked on this series.
