Book by Ocko, Stephanie

This book is truly amazing! It's organized by types of animals you wish to see (apes, elephants, etc) and different places to travel (Africa, oceans, etc). It is an amazing reference book and also very interesting to read cover to cover. Not only does it provide a wealth of information regarding different adventure vacations to view or interact with animals, but it gives you several options to choose from (from simple accomodations to luxury accomodations; walking tours to train tours, etc) with several tour operators to research. It's also filled with interesting facts--it explains a bit about the animals you are seeking to visit (including statistics as to how endangered some of them are), along with providing an overview of the different regions where the animals are located. I'm really not one of those people who can sit down and read a book from beginning to end, especially in a short period of time. I'm an attorney and do enough reading at work and it's rare that a book interests me enough to do additional reading in my spare time. But I was able to pick this book up and read it cover to cover and found it to be very fascinating and a great resource for planning vacations or just learning about different species of animals.
