Customer Reviews

Very accurate tabs! I have gone through a lot of the songs and feel very confident that these tabs are spot-on. As a 24 year veteran of technical guitar playing, I would highly recommend this book. As a sidenote, I also have the Keyboard version of this book, and that one is just as good!

he loves it a lot, but i haven't heard him play any yet! I don't know any of the songs from this book so I can't say much about it, but if you play guitar and love this music, go for it! it came pretty fast as well!

Not much to say. This album is definitely one of DT's best, and this book lives up to the high standard of the previous albums' transcriptions. offers the lowest price by far -- so what are you waiting for?

Accurate transcriptions, very well put together. Be prepared though, these are tough parts to learn. Some of the arrangements are very challenging, requiring some tricky left hand motions.

This book includes all the professional description and transcripts that you may need in order to play it exactly as it sounds on the CD.

The only thing I'd change is the binding. Other than that, this book is wonderful. It's easy to read and accurate.

Great tab book, very accurate.

I love it
