So worthy to rent this book it saves me a huge amount of money and the quality is so good just like you purchase a new book

Easy to follow and understand

perfect!

Exactly what it promised

Talk about monopoly pricing! While waiting for this book to ship I found an earlier edition in the library and wished I had just bought that. It has the same basic information and would have been much cheaper.

I never know this book became my favorite book!!!! Really like it!

Its the right book. Good price too

You thieves! Why do you charge so damn much for a book that is soo boring and bad at explaining economics. Thanks for not explaining any of the math that goes into the graphs and charts so I have to take 5 hours understanding 1 damn chapter.
