Customer Reviews

Yes Yes Yes. Funny insightful and on point. Tips are good not as detailed as a course but if you've been selling or have had in several depth marketing courses this will point out how to put all that together and use it offline.

As usual, because it came out of Doberman Dan's head, it has a ton of practical, and tested ideas. This is a must read for each and every entrepreneur, no matter which stream they're in. I know the title says, "Supplement Marketing", but it's applicable to pretty much every other field as well. I've read it once, but I'm sure I'm going to go back to it again, and again, and again.

I have been wanting to get into the supplement space for a long time. This laid out the perfect plan and steps.

If Dan wrote it you have to buy it.....As always from Dan amazing stuff you just have to know. Just Buy The Dam Thing

Anything Doberman Dan puts out is gold...including this. His strategies -- all of which you'll find in this new book -- have easily added 6-figures to my business in the last few years since I first started following him. Heck, one headline idea from him ran as a control for one of our sales letters for over 2 years. So don't hesitate to buy this book, and do it now...your wallet (and marketing brain) will thank you.

I am not in the supplement business, but I bought this book simply because when this Doberman barks I am going to listen. Why is that? Doberman Dan Knows what's going on when it comes to creating, effective direct sales copy no matter what you are selling. Dan is a BIG DOG, who comes highly recommended by other "A List" Copywriters. So even if you don't plan on entering the supplement niche, I highly recommend you get this book and use it as a reference to build your audience, increase your sales and Rock the Free World. You will love this information.

Doberman Dan is one of the best. Real-deal, no-nonsense advice from a guy who's actually 'been there, done that." Especially in the supplement business.
