Linda Larsen is the author of 33 cookbooks including the bestseller The Complete Slow Cooking for Two. She is the Busy Cooks Expert for About.com, and specializes in quick-cooking, healthy, and

slow cooker cookbook recipes. She and her husband live outside of Minneapolis, Minnesota.

This cook book didn't live up to my expectations and there are errors. For instance, a recipe for bean and spinach enchilada bake, page 150, does not list an amount of spinach in the list of ingredients or how to incorporate it into the dish. The split pea soup, page 87, uses caramelized onions as flavor, but the resulting soup has a odd after taste because of this. The fruit and rice pudding, page 250, uses only 1 cup of rice and 2 quarts of liquid resulting in a very sharp tasting fruit pudding instead of a rice pudding where you can actually taste and feel the rice. Rice should have been listed only as a thickener. I'm a fairly experienced home cook and I've tried several of the recipes. So far, not so good.

We have made about a dozen of the meals from this book. It's perfect for Crock Pot Monday. We've had some hit and misses. The chilis are delicious! I never like quinoa before now. I haven't enjoyed so many of the cumin and beans recipes - but my husband loves them. The sweet potato frittata was strange, but we agreed to make this recipe with half as much sweet potatoes and bake it (like a traditional frittata) because the flavors were good, but the texture was quite disagreeable. The recipes tend to call for A LOT of liquid. We generally add at least one fewer cup of liquid (usually broth) and then take the lid off between coming home from work and dinner time. There aren't any pictures which was initially disappointing, but after making so many of these dishes, I can see why - they're mostly red and soupy.

This book is excellent. It gives solid instruction on using the slow cooker, background in various ingredients (who knew), and delicious recipes.

Marvelous variety and detailed explanations, but I was looking for something a little simpler and less time-consuming. Everything looks great, though, if you cook at this level. Wish I did!

Difficult recipes that even seasoned cooks find difficult to make. Unrealistic.

Wonderful recipes for all occasions.

Great recipes.

Before even finishing this book I bought a 5-quart slow cooker. Well there are only two of us at home, I often dishes for church potluck. I'm anxious to start trying all these recipes. Well, some of them since I eat gluten and dairy free, often no grains either. I recommend this book to anyone who loves vegetables as I do. She includes recipes using gluten free flour as well as regular flour. This book is very encouraging. Thanks, Linda.
