Great collection of songs but buyer BEWARE: The TENOR -and-ALTO version of this book are EXACTLY the same, no difference in notes or anything other than the "cover & title" page!

This book has a wide variety of songs, you can go from playing an old rock song to playing your favorite movie theme in a matter of minutes. Most of the charts in the book were easy; if you can hit a high F you should be able to play all them. But even though the songs are easy, they are still really fun to play. I'd recommend this book to any trombonist looking for a cheap way to play a lot of great tunes.

Liking this book as a beginner because it's proving a challenge. There are plenty of songs I know so it makes it easy to know if I'm playing them correctly. The songs range all styles and tempos so it gives me plenty to choose from. Only been playing for a few months so still choosing slower tempos.

Great selection of songs. Wish it had backing tracks to play along with.

This is a really nice book for beginner to intermediate players. I am an adult re-beginner and am more interested in non-classical music. I found about 8 out 10 songs to my liking and skill level.

Nice book - lots of songs. Very legible scores - I'm not the sax player, so I can't comment on the arrangements, but overall, happy with the book.

I liked the songs in it, but gave as a gift and I haven't heard her complain yet.
