This is a good book if you just want a very light course on Tarot but if you have any plans of getting deep into tarot, i wouldn't suggest this book. But for those just wondering what Tarot is and if its for you, this book is great for that.

Great little book. Good info these make great gifts. Great series of little hard cover books.

No pictures. I would not recommend this book as a comprehensive study tool for learning the tarot. I

do like it though, and I strongly value the author's experience and intuition when it comes to her take on the tarot. Would be a nice gift for someone.

GREAT RESOURCE, JUST LEARNING AND THIS BOOK HAS BEEN VERY HELPFUL!

Absolutely loved it! Delivery was fast. Packed with the authors insight & perspectives of Tarot.

Great little book! Hard cover which is even better.

I ordered this book for my daughter. I have been interested in tarot for 14 years & own over 5 dozen books. And this book is in my top five favorites. It is a small easy to read book but the information inside is invaluable. I have been doing pretty much the same layout since I first began reading the cards & since reading Cassandra Eason's "A little bit of Tarot" I have been doing different spreads. Her book is straight forward & the information is presented in a clear simple manner which I enjoy very much. The book took about 3 or 4 days to arrive & was well packaged. If you are overwhelmed at the number of books out there & are unsure of which one to buy this is the book for you!
