Synopsis

Want to Get Started Zen Doodling? This book has it all...For a limited time only, Create Doodles will be offered at \$4.97- a 25% discountDoodlers have been given a bad reputation for their *absentmindedness*™. After all, it's hard to fathom how sketching on a napkin, the edge of a table or on one's hand can in any way, shape or form be productive. Well, some may say that the productivity is in the explosion of creativity that one sees once a doodle is complete or even in the incompleteness but true originality of other doodles. However, this isn't all there is to doodling. Though with this book, you'll begin to learn how to release your imagination and create doodles that are worth keeping and perhaps unique and witty enough to claim their own frame and spot on your living room wall, there's a lot more to doodling than the eye can see. What's Inside the Book?Inside you'll find many creative doodles for hours of fun expression and designs to create unique drawings. Doodling is an art form and one that can lead to master pieces. We offer step by step instructions on how to draw zen doodles. Welcome to Tons of Zen DoodlesWelcome and take a peek inside. Grab a piece of paper and a pencil or pen and get ready to learn how to draw Zen Doodles. Everything you need is inside this book including plenty of patterns with easy to follow step by step instructions.

Customer Reviews

This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.

I (think) I have all of Mr. Ford's books and one of the things he does well is break things up into simple steps. Even though Zentangle is all about no mistakes, just opportunities for change and all that positive stuff, it can be intimidating for a new tangler to look at a beautifully executed and detailed drawing done by an experienced tangler and feel intimidated. This book is full of designs easy enough to encourage. My only gripe was that the price stated was about a dollar less than I was charged. Tangle On!

The description lead me to believe it was going to be some type of dictionary of patterns. So very disappointed.

This book corners basic structural patterns. Interesting, basic. Would recommend if you are beginning Zen Doodles. I like this book.

I love this book, it has a lot of patterns but it doesn't show give you instructions on how to draw them. I wouldn't recommend this book for beginners!

Helpful for a beginner &. For the price.

Loved the book would recommened it beginners who are learning zero tangle. Have. Purchased

many books but this one is easy to read and practice from.

Loving learning this art this book is full of ideas and practice space
