Jupiter's Travels In Camera: The Photographic Record Of Ted Simon's Celebrated Round-the-world Motorcycle Journey

Synopsis

For four years during the 1970s Ted Simon rode a motorcycle around the world, something no-one had ever done before. He described his adventures first in regular bulletins for The Sunday Times and then, after his return, in *Jupiter's Travels*, a book that has become revered as a classic of travel writing. Published by Penguin, *Jupiter's Travels* has sold nearly a million copies in the intervening years and has remained in print throughout that time, remaining a strong seller even today. Ted Simon took a decent SLR camera on the trip, but only a handful of his several thousand color photographs were included in *Jupiter's Travels*. These are now included in the book published to coincide with the 40th anniversary of his ground breaking trip.

Customer Reviews

Born to a German mother and a Romanian father, Ted Simon was brought up in England through World War II. He soon found himself impelled by an insatiable desire to explore the world that led him to abandon an early scientific career in favor of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. He is also the author of *The Chequered Year*, *Riding High*, *The River Stops Here*, *The Gypsy in Me* and *Rolling Through The Isles*. He lives in the United States.

Great photos that enhance the book enormously. I've read *Jupiter's Travels* several times and this photo book is really the icing on the cake.

Very good and I'm totally happy with this purchase. The book comes with only minor scratches on the covers only. Highly recommended !!!

Great companion to Jupiter's Travels and Riding High. Good to compare the descriptions with the photos. Certainly made me want to visit a few more places like Kassala and Ethiopia for the scenery and culture.

Nice book !! I enjoyed it.....not top shelf but a good all rounder. Anyone into travel will love it !!!

After reading Jupiter's Travels this book is a must. What about doing, Dreaming of Jupiter in camera.

Fun to connect photos with his books. He's a neat guy, ran into him at a BMW motorcycle rally a few years back

Good photo review of Jupiter's Travels. Bought all together with the story book, is the perfect component.

An inspiring addition to his book
