Synopsis

This Kindle Book directs the consumer's buying behaviors of colored contact lenses to the best, for life. You will enjoy reading professional reviews of the colored contact lenses brands with me (the author of the book, Dr. Rami Baramada). I am an optometrist who has many years of editorial experience in consumer publishing, with an emphasis on the health and beauty fields. I had published some articles to educate women and consumers about the colored contact lenses. I didn't expect the huge useful impact that these articles had left on the readers. I had got many positive comments and thanks. The comments of the readers revealed a real demand of the consumers for a source of education on this topic. And here is the source (Colored Contact Lenses: an Easy Consumer's Guide). This book consists of six sections. The first section is a brief introduction about the colored contact lenses and when they had first emerged out. Then, the book discusses the colored contact lenses brands in two categories. The first category is (cosmetic contact lenses brands) and the second category is (decorative contact lenses brands). The second section of the book reviews details about the first category (cosmetic contact lenses brands). The third section named (common cosmetic contact lenses brands) reviews seven common brands of cosmetic contact lenses. This section discusses every brand of the seven in a single topic. The topics reviews the brands' colors, the lens performance of that brand and then gives brief details includes the manufacturer, the wearing modality, the replacement schedule, the packaging and the availability of the lenses for normal people and for people who need vision correction. The fourth section reviews details about the second category (decorative contact lenses brands). After this, the fifth section reviews two examples of the decorative contact lenses brands. The sixth section of this book named (colored contact lenses wear and care tips). It gives brief important tips that illustrate the safe wear and the proper care of the colored contact lenses.
