Contest Guru's Guide To Winning Sweepstakes

Synopsis

Win BIG now! Do you want to win trips, cars, big screen TVs[™]s, computers, money and more? Have you ever wondered why some people are so lucky and win over and over again? Have you ever wondered what their secret is? There are hundreds of sweepstakes open for entry every day of the year, and thousands of prizes available for you to win. Sweepstakes are FREE to enter! BIG prizes include cars, home renovations worth a \$100,000+, round-the-world trips, and big cash prizes of \$10,000 and more. Medium sized prizes include home theatre systems, computers, full camera systems, trips to Disney World, Europe and more. Small prizes range from books, T-shirts, and hats to ipads, iPhones, watches, beauty bundles and more. Have you ever walked by a draw box in a store and NOT entered? BIG mistake! “ these sweepstakes have some of the best odds going. Some people only enter a sweepstake occasionally and win. Others make their living entering sweepstakes and win OFTEN! It doesn't matter where you are in this continuum, as long as you enter, you have a chance of winning. All it takes is a few minutes of your time and knowing how to increase your odds for winning. Contest Guru's Guide to Winning Sweepstakes is all about WINNING. You will find out about the legalities of sweepstakes; how to find legitimate sweepstakes with fabulous prizes; how NOT to get disqualified; how to leverage software to enter more contests, faster; and how to avoid scams. You'll also get resources to help you keep your hobby under control and dozens of links to the best sites for finding and entering sweepstakes. Find out about the exciting world of sweepstakes and join thousands of happy winners who win BIG prizes all the time! Winning Sweepstakes was first published in 1986 as “Winning Ways.” It was a best seller from day one. Over the years it has been revised numerous times. This is the first Kindle edition. If you have ever wondered how to win sweepstakes be sure to download this book now! You too will soon be entering the Winner's Circle. Here's what one reviewer had to say: You too can be a WINNER: In addition to giving great information on why sweepstakes are FREE to enter, the author, Melanie Rockett provides details on the many different kinds of sweepstakes and which ones have the best odds for winning. She goes through the dozens of different ways to find great contests and how to spot and stay away from potential scams. In the past I've entered a few sweeps but found all the forms annoying and the fact that I got loads of spam even more annoying. In this book you will find out about programs that can help you automate the form filling process and websites that will help you keep track of everything you have entered. Melanie also gives you her own personal system for keeping the spam to a minimum. This book is a fascinating look into the world of sweepstakes. You can be sure I will be entering more often and with a bit of luck (and the secrets) winning more often. Tags: contest, contests, sweepstake, sweepstakes,

Customer Reviews

I have consistently entered sweepstakes throughout my life, but have never considered myself a winner, which is why I decided to pick up this book. The title sounded intriguing and I thought it would help me have more luck at winning. After reading it, I am so glad that I made the choice to buy it. I learned so many things about sweepstakes that I never knew before and you probably do not know either!The author has an obvious knowledge about the ins and outs of sweepstakes and happily shares them with her readers. I did not know most of the tips provided, which I was pleasantly surprised about. I really thought that winning contests in stores and such was strictly about luck, but it is not! If you have given up on sweepstakes because you NEVER win, you will want to give them another shot after reading this book and its amazing tips. You too will be a

winner!

I have purposely ignored sweepstakes most of my life. Why? Because I never win anything, or at least that has been my mantra all of my life, so I decided to avoid wasting my time entering sweepstakes. After reading this book, however, my mind has been changed. The problem was that I did not know enough about sweepstakes to be successful at them. Did you know that winning only involves 10% chance? I sure didn't until I read this book! So what did I learn? A lot! First, there are many, many different types of sweepstakes "many that I never even heard of, but will certainly be on the lookout for. Match and win contests, which are the only type of sweepstakes I never entered, are not the way to win. There are a lot of scams out there, but there are also thousands of legitimate sweepstakes. Now I know how to differentiate between the two. Where to find sweepstakes and simple techniques to increase my odds of winnings. Now I'm off to enter some sweepstakes!

Contest Guru's Guide to winning sweepstakes is sure to get you interested and try your luck even if you were one of the curious readers like me and never believed in winning sweepstakes. Melanie with her tried and tested techniques and easy to follow steps might just convince you to try some of these sure to succeed ways to win sweepstakes. I really appreciate the author for sharing these 'real secrets' as she calls it so generously for all to benefit from. Most of the basic things we overlook while entering contests and make the most unbelievable blunders which could be easily avoided with the help of this book and that inevitably would make sure you at least have a fair and equal chance of winning the contests. Also the author provides enough signals to read in order to avoid scam artists who are so common in this business and as a result, it becomes difficult to trust even genuine ones over a period of time. Lastly, the author shares plenty of good resources which is extremely useful and would go a long way for anyone serious about winning sweepstakes. I highly recommend this book to anyone serious about entering and winning any kind of lucky draw or contests since the author has elaborately covered everything possible under one roof!

Wow, I had no idea of the amount of sweepstakes available and that you could so easily enter them online. After reading Melanie's book and checking out the huge list of online resources, I can't wait to jump in and enter some of the many contests brought to my attention. I'm trying this out with some of the many free tools and contests sites available, but after reading some of the author's strategies, I'll be moving into the serious paid options as soon as I see some positive results. This is

going to be fun and hopefully bring some new excitement into each day as I regularly check my emails to get that great message, "YOU ARE A WINNER".

This book provided more websites and resources to win that I did not know existed. I took good notes. Recommend!

I used to scour internet for contests and sweepstakes all the time! I had forgotten how fun it was, especially when I won! But my biggest winnings were always from local stores and the radio. Reading this is making me want to enter again. Easy read but full of great ideas and tips.

I won this book as an #giveaway for free on Twitter in exchange for a product review, and I must say, I have been signing up and receiving free samples from companies for over 10 years but this book really gave me a lot of neat tips for sweepstakes. Very easy reading material, not overwhelming nor difficult to find exactly what you look for when going to another chapter. Highly Recommend, thank you!

As a sweeper I've found this book very helpful. I learned a few things I'd never known about the sweeping community. I look forward to taking what I've learned in this book and putting into my favorite hobby. I can't wait for the FedEx, UPS and USPS trucks to start arriving at my door!
