Collecting And Identifying Rocks - Geology Books For Kids Age 9-12 | Children's Earth Sciences Books

Synopsis

If you think all rocks are the same, then you are wrong. There are different types of rocks. They were formed in various ways so they have different compositions. Earth rocks are identifiers of this planet that is why it is important to have the knowledge of rock identification. Perfect for kids age 9-12, this book is a must-have!

Customer Reviews

Baby Professor showcases a collection of subjects that are educational for kids to help them learn how to do something themselves, exactly how something is done or how it came about. Children love to learn through attractive visuals and Baby Prof. is ideal to get your child the head start he or she needs for the future. Our Motto - "Learning is Fun, so let's Make it Fun to Learn".
