I make homemade wine. I thought how cool it would be to make homemade cheese to go along with the wine. I thought making cheese would be a lot more complicated. Carson has put my worries at ease by explaining how simple cheese making can be. He also included a good section on troubleshooting. I've started out with making a simple soft cheese. Depending on the outcome, I'll look into investing in a cheese press. I'm sure several of the butter recipes will make their way into my kitchen as well.

This book really is a solid guide for learning how to make cheese, butter, and yogurt at home. I was most interested in making cheese at home because the idea of that sounds really good, and this book did not disappoint! It covered all the materials you'll need, the step-by-step process, and even common mistakes people run into. Really great if you're a beginner trying this out for the first time. Not only that, but recipes were included for a variety of different cheeses like goat, mozzarella, Monterey Jack, and more! Highly recommended if you're interested in making butter, cheese, or yogurt at home!
