Customer Reviews

Reliable, Readable, Rough Guides Conde Nast Traveler

This review is for the Kindle version. The sample Kindle version shows full size maps, so I expected full size maps in the version I purchased. Not so at all. The maps are tiny and therefore not useable. I installed the Kindle reader software onto my PC to see if the maps would be larger. They are NOT. The Kindle sample of this book is false advertising in regards to the maps. Other content in the book is good, but I wouldn't have wasted my money on the Kindle version had I known I would still need the paper version in order to use the maps.
