nice map

Nice quality, good details. Served its purpose as a GENERAL map of Nepal. If you intend to do any trekking however, you will need to purchase more specific maps for the particular areas where you will be trekking. BUT buy those maps when you get to Nepal. Good quality maps at cheap prices are found everywhere in Nepal.

I took this with me when I traveled to Nepal. It was handy to have.

The scale is a bit off, doesn't easily show entire country in one image

These are great maps. I can't recommend them highly enough. Taking one to Nepal later this year and leaving the other at home so my wife can figure out where I will be each day. Very sturdy map with good details.

great map series; arrived rapidly after ordering

The city inset for Kathmandu does not have lat/long coordinates like the rest of the map. I like plotting where I have been from my gps.

Great map and one that will hold up with use
