Christian Mission: How Christianity Became A World Religion

Synopsis

Exploring how Christianity became a world religion, this brief history examines Christian missions and their relationship to the current globalization of Christianity. A short and enlightening history of Christian missions: a phenomenon that many say reflects the single most important intercultural movement over a sustained period of human history Offers a thematic overview that takes into account the political, cultural, social, and theological issues Discusses the significance of missions to the globalization of Christianity, and broadens our understanding of Christianity as a multicultural world religion Helps Western audiences understand the meaning of mission as a historical process Contains several new maps that illustrate demographic shifts in world Christianity

Customer Reviews

"Despite these concerns, Christian Mission is a valuable addition to the growing literature on world Christianity . . . our overall understanding of Christianity as a world religion is significantly increased by Robert's work." (Christian Century, 8 March 2011) "This work is a valuable contribution to the subject." (CHOICE, December 2009)"Roberts helpfully reminds the readers that this...must be understood by accounting for the various players and settings in which it unfolds: "It is important to study the spiders, but it is equally important to notice the web" (177).Christian Mission, appropriate as a college or graduate level text, is a commendable introduction to those seeking to make sense of this tangled web." (Missiology, 2010)"[This book] does a lot of things (including a chronological and thematic study of 2000 years of Christian mission!). Along the way, Robert points out that

Christian missionaries have done much good for the societies they have entered." (The Gospel Coalition, January 2010) "A masterful survey of mission in Christian history from the very origins of the religion to the present. â | It should be required reading for any undergraduate course on Christianity or world religions." (International Bulletin of Missionary Research, October 2009) "Robert unerringly focuses on the most important issues. She is especially good on the persistence of gender issues in mission history." (Christian Century, October 2009)

" Dana Robert distils a quarter of a century of her research into an erudite and accessible single-volume account of how Christianity became the largest religious tradition in the world. There is no better place for any reader to start becoming informed about this important subject." â "David Hempton, Harvard University"Remarkable for the range and depth of the material Robert is able to pack into so short a book. Reliable and readable, it is especially valuable for its treatment of the relation between western and non-western missionary activity."â "David A. Hollinger, University of California, Berkeley"Dana Robert's richly textured book shows us that the history of Christian missions is far from being merely a European colonial story, and will be immensely valuable to students and general readers who are concerned to uncover the historical roots of Christianity's current status as a truly global faith."â "Brian Stanley, University of Edinburgh --This text refers to an out of print or unavailable edition of this title.

Robert offers challenging yet helpful insights into the history of missions. I applaud her inclusion of more than just the usual evangelical view. I felt that she left out too large a chunk of history between 900 and 1500. There were also some small inaccuracies concerning Patrick (treating him as part of the Roman Church); but these in no way detracted from the point of his story.

Well written book - required reading for my UMC Mission class - had some good historical information and ideas for the way forward for mission in today's culture!

Interesting to learn history as well as development of missions.

I had to buy this book for a class. It has good info in it. I'm planning on keeping it after my class is over.

Good

Educational and enlightening. Thanks very much.

Bought it for a class

Good information for my research.
