Student Workbook For Modern Dental Assisting, 10e

Synopsis

Easy to understand and simple to use, *Student Workbook for Modern Dental Assisting*, 10th Edition, provides the best review and practice available in workbook form for mastering core dental assisting skills. Doni Bird and Debbie Robinson offer chapter-by-chapter practice questions and exercises, competency skill sheets, flashcards, procedure reviews, and case studies to help you master the content in your textbook. It's essential in helping you master the skills you need for clinical success. Comprehensive practice exercises for each chapter (short answer, fill-in-the-blank, and multiple-choice questions and labeling exercises) help you master key terminology and important concepts. A multimedia review section refers you to relevant procedure videos on the text's Multimedia Procedures DVD to visually reinforce your understanding of chapter content. Patient case exercises section directs you to patient information on the companion Evolve website's Interactive Dental Office, including related medical and dental histories, radiographs, and charting information to will help you answer questions that reinforce chapter content and help you develop clinical decision-making skills. Competency skill sheets provide clear guidelines for each skill and help you evaluate your strengths and weaknesses in performing procedural skills. Pages are also perforated so that you can remove individual skill sheets and take them with you. Tear-out flashcards summarize key information about the sciences, medical emergencies, infection control, radiography, dental materials, dental instruments, and dental procedures for convenient, portable review of key information necessary to prepare for examinations. Brief case scenarios with accompanying questions challenge you to apply key clinical concepts and prepare you for real world practice. Competency skills checklists are provided for all procedures new to the textbook, including use of the caries detection device, applying fluoride varnish, taking a patient's pulse oximetry and ECG, performing intraoral and extraoral photography, and performing radiography with digital sensors and phosphor storage plates. Patient form activities offer valuable practice filling out blank patient forms that are essential to today's dental office.

Customer Reviews

my school did not require this workbook for the Dental Assisting Program, but I had heard from another student who actually purchased this by mistake what a great tool it is. modern dental assisting is a text book that I am using in multiple classes, so this workbook has been a great asset for all of those exams. the price has gone up since I purchased it, so shop around, but it's worth every penny if you want to do well!

ok condition. product was NOT as described. Listing said no writing, but upon arrival was half filled out in ink pen that isn't erasable. Not good for someone needing to learn and needing to turn it in as homework with someone elses handwriting. Seller offered to refund but it took so long in receiving it i needed it for class and there wasn't an additional month to get another one,

It was exactly as described. Received on time too. Thanks

The book is very helpful when studying for tests in my Dental Assisting class. I have also noticed that my teacher will usually pull a few test questions from the book to put on some of the tests that is given in my classes. The book is definately an asset to have if you are in a dental assisting program.

Very nice book and way cheaper to buy off here ! Was in very good shape and got me threw my class , thank u

This book was recommended by my Dental Assisting Instructor. So much information clearly displayed and explained. Love the book, fast delivery and the best price by far. Thank You....

Awesome book! Very helpful.

came fast.....nice!
