Atlas Of Newfoundland And Labrador

Synopsis

A unique and beautifully detailed record of the development of Canada's tenth province, this, the first atlas of Newfoundland and Labrador, traces the relationship between the geography of the province and its people. This volume follows the development of the cultural heritage of the land and the movement and struggle of its people from the earliest evidence of human habitation in the Viking settlements at L'Anse aux Meadows in 986 A.D. to the present day.
