Book by Grist, Everett

The book seems a little outdated from some of the other books I have purchased on marbles.

Great book

My 7 year old grandson has really taken an interest in marbles since he viewed my big jar of old marbles that belonged to my father. All of these marbles date back to the turn of the century to about 1920. He is so fascinated and loves them so much that I am giving him these marbles in the antique jar they have been in for the last 50 years.. and purchased this book for him as well for his 8th birthday coming up shortly. It is just the right size for him to get started on this new found adventure. Thank you for the quick shipping..I know that he will love this book to compare with some of the treasured marbles in that jar!

great read

Informational

This book is a good book and it is easy to use and identify marbles, however the value guide in the back could have been better. This is a small and thin book, but it is helpful. I was hoping this would be bigger and much more detailed than it is, but it will serve its purpose.

Great little gem

Love my marble book. It arrived in great condition and I really like it.
