# **Lost In Shangri-La (Enhanced Edition): A True Story Of Survival, Adventure, And The Most Incredible Rescue Mission Of World War II**

## **Synopsis**

A New York Times bestseller, the extraordinary World War II mission to rescue survivors of a U.S. military plane crash in an isolated corner of the South Pacific, and the ancient indigenous tribe members that aided those stranded on the ground in this "Shangri-La." Award-winning former Boston Globe reporter Mitchell Zuckoff unleashes the exhilarating, untold story of an extraordinary World War II rescue mission, where a plane crash in the South Pacific plunged a trio of U.S. military personnel into a land that time forgot. Fans of Hampton Sides' *Ghost Soldiers*, Marcus Luttrell's *Lone Survivor*, and David Grann's *The Lost City of Z* will be captivated by Zuckoff's masterfully recounted, all-true story of danger, daring, determination, and discovery in jungle-clad New Guinea during the final days of WWII.

## **Customer Reviews**

What a fascinating story! This is one of those hidden pearls that opens readers to a tale most don't know. That alone makes it a five-star work in my world. The descriptions of how a hidden valley, unknown to 99.9% of the world during World War Two is fascinating on its own lever. This area is smack dab in the middle of Papua/New Guinea. While the world is being laid to

waste, there is a hidden society under the noses of the Japanese and Allies. The original, modern day explorer, Richard Archbold would be the first in the twentieth century to travel to the interior of this lost country. Colonel Ray Elsmore would follow up in 1944, one year before the ill-fated crash of the Gremlin Special. What should have been a normal sight-seeing tour turned into anything but. The plane, for whatever reason, plowed into a cliff killing nineteen of the twenty-four passengers in a fiery crash. John McCollum Ken Decker, Margaret Hastings, Earl Walter Jr. became the only three to walk away. Two other passengers survived yet hung on for only a short time from massive burns and internal bleeding. Enter Captain Earl Walter Jr. His father was becoming a hero in his own right as he stayed behind after the Philippine Islands fell and organized a guerilla force to fight the Japanese. Jr. wanted nothing more than to get into the fray. Yet circumstances and the progress of the war were keeping him in the rear. When he was approached about the crash site and the difficulties of getting to the survivors with no feasible exit plan, he jumped at the opportunity. For most of us who have read countless World War Two accounts, this seems trivial and almost unbelievable. How could an area be this isolated in the twentieth century? There were no roads. The closest lake is thirty miles away. The jungle terrain is virgin territory and the inhabitants are known or thought to be cannibalistic. Now, how many volunteers do we have? Top that off, two of the survivors have debilitating injuries. Margaret has third degree burns on her calves and face. Decker has a terrible head gash. Both of their wounds become gangrenous. An excellent tale of survival, ingenuity and the fighting spirit. I highly recommend this work to any World War Two buff! Five Stars

This offering is filled with drama, the characters of this book HAD to live! Each scene, every chapter was a part of their lives, written on their souls! Now we, living in the 21st century get to vicariously experience a small portion, of what it must have been like for them! I found myself reading when I should have been asleep. I haven't done that since I was a child, hiding under the covers, reading by the dull glow of the flashlight, praying my mom wouldn't catch me, at least not until I finished the next chapter! She usually caught me! Anyway, there's much to admire about these people, native and military, and the writer gives each person a complete fleshing out. Even the smallest detail, culled from old records, or a personal recollection was given its own liveliness. It took true grit to survive the incredible ordeal that was thrust upon them. They not only survived, they triumphed! The most poignant of all the scenes portrayed, is the solemn funeral service held in air. Not only did I thoroughly enjoy this book, I liked it so much, I sent it to a loved one as a present.

Living history at its greatest. This is an incredible story, a tribute to all those involved, and a fascinating study in the cultural collision between Western Civilization and a tribe of South Pacific islanders not very far removed from the Stone Age. Well written and obviously well researched, this is an account of a little known tempest in a remote corner of the proverbial teapot that was WWII in the Pacific. Perhaps the author's most significant achievement is his ability to tell this story in a relaxed and easily understood way while bringing to the fore in vivid mental images, the lush and unforgiving landscape, the nature and culture of the Dani people, as well as all the danger, fear, loss, uncertainty, courage, determination, and strength of will evidenced in this remarkable story.

Both my husband & I read Shangri-La & loved the enhanced edition. We've bragged about the miracle of the rescue, the courage of the survivors, the overcoming of impossibilities, & recommended it to several friends. Great book! We love TRUE stories.

I absolutely love books that tell me something I didn't know. Lost In Shangri-La is full of new information...From the roles of women in the armed services during WW2, to the base on New Guinea, to the episode that this book centers on~I didn't know any of it. I'm awed by the intrepid men and women who served our country during that war (and all others), but this story...! I just couldn't believe I had never heard it before, but apparently the end of the war, the atom bomb, and so much else going on in the world overshadowed it to a degree; and the heroine was a reluctant famous person who soon put it all behind her. I got this book at a bargain price and got so much more than I bargained for. My only regret is that I hadn't finished it when we took a trip to Washington DC and stopped briefly at the Air and Space Museum. If I had finished the book, I would have gone straight to the WW2 era section, and looked for...well...read the book, and when you get near the end, you'll know exactly what aircraft I would have looked for. I am so grateful to Mitchell Zuckoff for writing it. It'll be my next book club selection.
