Psychological Astrology And The Twelve Houses (Pluto's Cave Psychological Astrology Book 1)

Synopsis

"Psychological Astrology and the Twelve Houses" will surprise you, whether you are a complete beginner or a seasoned professional: Noel Eastwood is a psychologist astrologer who approaches astrology as an altered state of consciousness. He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable, you need to experience the place for yourself: meet the locals in small cafÃ©s, discover hidden fountains and secret gardens. This is a practice-oriented work, Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual. He picked four well-known figures to illustrate the process of analysis on their charts: Barack Obama, Hilary Clinton, Justin Bieber and Taylor Swift. What makes this book truly unique, however, is an invitation to meet your astrological archetypes. To show where such an inner journey can take you, Noel shares his personal meditations as if you were reading his private travel diary.

Brilliant read for anyone wanting to learn more about astrology.

Great info

I was very excited to read his book because it takes on some intensely personal subject matter from a psychological perspective, which Noel is uniquely qualified to write about, since he is that rare combination (that I wish we had more of in the astrological world), a practicing psychologist and astrologer. His areas of expertise are Jungian and archetypal psychology, astrology, Tarot, and Taoist meditation, so he's well-versed in the realms of the psyche. My first impression, once I got started reading, is that this book is an ideal blend of serious subject matter handled with respect for the reader, with just enough astrologese for the basic-to-medium-advanced astrology student. Noel does not overwhelm you with the level of detail that is automatically off-putting for the beginner. You won't be scared picking up this book, in other words, if you aren't an astrology expert. This book is for the person who (in my opinion) would be dissatisfied with the superficial or cookbook style astrology book and is looking for something that goes deeper, that explains the pieces of the self we don't usually discuss, even in the astrological world, but most people who want to understand their own (and others') psychology wish could be discussed with some depth and understanding of what's really going on in our psyches as expressed through our natal charts. Speaking as a professional astrologer, I personally got the most out of the very end of the book, where Noel discusses 'houses as psychological defenses.' If you read this book for nothing else, get it for the series of meditations Noel asks you to do; those on their own are very valuable (and I would suggest keeping a journal as you go, to capture your responses). A valuable book for the person looking for psychological self-awareness. You can see my full review [...]

This book is exactly what I was looking for! Excellent information presented in an entertaining and logical way. For the serious student only, I would advise. I've been on the metaphysical road pretty much since birth & have studied astrology charts for over 25 years. This book truly helped me synthesize an enormous amount of facts and data that constantly swim around in my head. Noel Eastwood...Thank you, sir, for taking the time and making the effort to help students (like me!) on our sometimes strange and difficult (yet always amazing) personal journeys. For me, healing is the goal, knowledge is the path and application & practice are the keys. This book makes a great contribution and I look forward to more from this author/teacher.

I've been fascinated by the art and science of understanding astrology. Going deeper than just our 'sun sign'. As I've learned to read my own astrological chart I came across this book and it has really helped me learn more about myself than I thought I already knew. You see Noel's ability to easily explain everything that is complex about reading an astrological chart, as well as the techniques and guides he shares teaches us how to meditate and tap into these inner powers that each and everyone of us has. If you're beginning your journey of self-discovery, I truly recommend this book as a great place to start.

Excellent book for a newbie like me. One can enjoy the easy flow of knowledge very seriously backed by a real experience of the inner world, something far too scarce in a culture where so many people talk without the slightest link to reality, experience, or their guts. Highly recommended.

I was looking for a book to help me better understand astrology and this definitely expanded my knowledge. I would recommend to anyone looking for a thorough understanding of the houses.
