Grade 7 Up-The articles in this volume cover events, people, documents, legal cases, and social and political movements and groups that have had an impact on our country since the end of World War II. The alphabetical entries range from one paragraph to four pages, with most under one page. Biographical articles are prefaced with mention of significant dates in the subject's life and, often, a list of accomplishments. See-also references and a short list for further reading conclude most entries. Like the other titles in this series, the attractively designed pages are formatted in two columns with generous margins. Black-and-white photographs with informative captions appear on almost every double-page spread. A chronology is followed by a three-page bibliography that includes some of the same references given with the articles and others that are more general in scope. Although there are some omissions in the index and see-also references, researchers will be able to locate the information they need and navigate comfortably. The unbiased articles will clarify concepts and help students understand this period of our history.
