The biography of Dale Earnhardt is the best book I ever read. Ever since I heard about his death I realized who he really is. This book teaches me many facts about Dale Earnhardt's life of being a stock car racer. Not only does it teach me about Dale Earnhardt, it also teaches me about his competitors and how they lost to the champion. Like all biography, this book has information about his life as a child, like where he grew up, how his childhood was and. It also teaches you about his racing career, tells you about all of the championships he won, and how his family was with him racing. Believe it or not, thanks to this book I have a new person to be a fan of, this book told me about his two sons who also race. Another thing is that this book helps me under stand the racing that he did, like what the flags were, penalties, etc. All in all this biography of Dale Earnhardt teaches me about the legendary Dale Earnhardt and then some. My 6th grade son hates to read but loves Nascar. This was one book he had fun reading. The 60 pages are full of interesting info and good photos. He wrote a good book report about it.
