Customer Reviews

I found this book colorful home very exciting ,because it gives you an eye for interior design.This would be a useful tool to be an interior decorator.

Good pages very simple to color but yet very cute images.

This book was ok, but I had colored Jade Summer's "Interior Designs" which had much more detail.

This book contains different styles of drawing,,,,some seem like from a sketch- book...some seem like good images with solid lines to use when coloring,,and there are some pages with multiple images ,,,,look like a photo shop job. Each page has one image,,,nothing on the back.The paper quality is good. I was tired of flowers,etc. This iis exactly the change I was looking for. Nice clean rooms,,,,you can add to or not,,, I don't care for the intricate books,,,those are not relaxing to me.

This book is great to color,,,,and inspires me to Clean Up My Clutter and make my rooms look like these! Great Buy !!!

This coloring book is full of computer-generated furniture. There is not a lot of detail. There is no carpet/flooring and no works of art on the walls. This is a huge disappointment. Do not buy.

Great coloring book. There is flooring and there are pictures on on walls. You get to be the interior designer!

I love coloring. I have a adult coloring book and it goes just what it says..RELAXES YOUR MINE! I can't wait to receive this one!
