Customer Reviews

We like to take our running gear with us when travelling. It is not always obvious where to run in a new city. A nice scenery is a major bonus when running. This book, as do others of the same series, has some weaknesses in its approach to its subject. The routes described are usually ok but only as Your first run in a city. In Lyon we ran in the evening. Darkness made the the city even more beautyfull but the route described difficult to run. The book would gain a lot if the authors took the trouble to tell readers what to expect in varying conditions (darkness, summer, winter, what difficulties to expect, bonuses to expect if You continue running in some direction outside the

described route, safety, are You running on dirt or asphalt, etc).
