This textbook sucks. It is disorganized and expects you to learn most words based off of cognates. More frustrating is that as the book goes on it expects you learned everything the first time around so you keep having to flip back 5-10 pages just to see what the hell is being written. Ridiculous.

For the price of this textbook, you'd think the loose leaf version would be printed on better quality paper. Even just wiping an eyelash off of the page resulted in all three binder holes tearing. I've used probably 15 reinforcements just going through the first chapter. Rip off!

I rented this from for my 2nd qtr realizing from my first qtr that I worked better with an actual book in addition to online access. I received this in time for class which was great but there's writing (in pencil) all over the book and there's pages that are ripped. If you need Plazas for class then get it but if not don't bother. I find the material and teaching method inconsistent and not accurate at times. My teacher has to correct certain errors found in material.

this review is the same as the one for the manual that comes with it, or is the same issue. these books are a rip off but this Loose leaf version was an ok deal. the pages literally ripped out by gently turning the page a few times which is pretty lame. i can't remember how much i paid, but it was probably fair for this loose leaf version. don't go buying a more expensive version, just get the loose leaf. it was delivered in the expected condition though, and packaged nicely, so that's good news

Fast shipping great seller just not the best format to learn from most of the class didn't like using this book

Was able to purchase this one book online and use it for 3 semesters of College spanish. Great book!

great last 3 semesters the only down side is that every semester you have to buy the homework ilrn code which is like \$89 but yup...

Very happy with this purchase.
