I have lived in Pakistan three years and this book helped me understand the culture as though I lived there my entire life. It is full of useful details on traditions, food, religion, ethnic groups, festivals, laws, you name it. There are no long-winded historical narratives with names and dates shot at you like machine gun fire. Instead we get down-to-earth accounts of what day to day life is all about. The reader can sense her observations have been made from decades of first-hand experiences. There are very few generalizations and stereotypes discussed as is common with other such culture books. The author wrote in a reverent and non-judgmental manner. You can tell she has developed a great respect for what foreigners perceive as a backward culture. I do not agree with the other reviewers who says she is sexist. She is just telling it as it is. Considering she has lived there 40+ years by her own choice, I trust she knows what she is talking about.
